**THE PARAGON SIGHT AND SOUND**  
**MODERN MUSIC CENTER GRAND OPENING**

***March 1, 2018 from 6:00 pm -10:00 pm***

***Paragon Sight and Sound***

***3780 Jackson Road, Suite H***

***Ann Arbor, MI 48103***

**ANN ARBOR, MI (MARCH 1, 2018)** – Calling all music and technology aficionados curious to learn about the latest trends in digital audio equipment! On March 1, 2018 from 6:00 PM until 10:00 PM, Paragon Sight & Sound will celebrate the opening of their new Modern Music Center. Featuring interactive headphone displays, digital music stations, and a wall of turntables, it is a space designed for how people listen today. Free to attend, and open to the public, one will discover how easy it is to experience exceptional musical performances using the latest digital technology.

This event will include *“The State of Digital Audio 2018”* panel discussion featuring audio industry experts. Topics include the basics of digital audio, best of class products, and how to build your modern digital music system. Panel members include Chris Connacker founder of The ComputerAudiophile online publication, John Quick, General Manager of Data Conversion Systems Americas, Inc, and Steven Silbermann, VP of Sales at Roon Labs.

Also, in the house will be Nicolas Debard, Focal Worldwide Headphone Product Development Manager, Sanjay Sharma, Director of Sales & Marketing, Focal North America, and Jesse Luna, Data Conversion Systems.

“We are thrilled to have a fresh new space that exposes our clients to the latest digital, analog, and personal listening products” says Larry Marcus, President of Paragon Sight & Sound. “People today are listening to music everywhere, and in new ways. Our mission is to help them find the right products to enjoy music without compromising their modern lifestyle.”
